PERTINENT SUGGESTIONS FOR HIGHWAY BUILDERS

Editor Times-Gazete: As we are just at the opneing of an era of public road improvement, I suggest that the automobile owners inform us through the public prints, what kind of material and what kind of treatment will be most acceptable and most advantageous to the operating of their machines. The automobile travel is still increasing and cannot be restricted until its votaries decide to restrict it. The idea of a separate track for the auto is not a new one, but of what, and how is it to be constructed is a question theyshould answer quickly. The coming supervisor has a difficult task before him, on Woodside road to bring order out of chaos. I would require the electric companies to unite to the extent of using one line of poles. I would have those poles sawed out of the best redwood timber; the butts soaked in hot asphaltum; set deep and rock beat in around them, and if need be, cement intermixed so as to eliminate the necessity of bracing. I would then clean out that ditch from the foothils to Fve Points and would lay one line of large sewer pipe to Horgan's culvert at his west boundary. From there I would lay two sewer pipes of the same dimensions, side by side, to Five points, and knock off that bulkhead, and throw a strong grate over the gap. I would then build my automobile track over the sewer pipe, and finish it according to their wish, and then get along the best we may until the other can be reconstructed. I would prepare a few receptacles from the middle to the lower part of the pipe line to take in sufficient water; I think it would be well to take the wet season to spread and compact the material now on that road and such other as may be required to make a good road of it. I would have the crown so moderate that travel might go anywhere with equal facility; and I would run the water on the surface on the western side, compacting well the ock in a shallow gutter that will serve for a driveway when needed. I would prepare a narrow tract on the west side for bicycles.

Much of the grade above the J. J. Moore place is woefully in need ef improvement. Woodside is one of the most important outlaying sections in the county, and it would require no large expenditure in cutting and filling to make it safe and convenient. The automobile owners are paying enough fines to go a long way in improving a tract for their special use.

WILLIAM LASSWELL.

Colma News Paragraphs.

The parish picnic which took place on Labor Day, at Tanforan park proved to be a great success in every particular. The attendance was larger than ever bfore. The features were more interesting, especially the racing and bronco-riding. Jim Casey's prize of twenty-five dollars brought out six of the finest trotters and pacers in this part of the State. The first prize was won by William Fay's horse, the second by the South San Francisco horse, and the third by Jack Callan's horse. Larry Morrissey's horse of San Pedro won the running race. William Condrin maintained his reputation as the best all around horseman in San Mateo county. Joe McTigue pleased all the horse fanciers in his pleasant way. Judge Buck, Sheriff Mansfield, Franklin Swart, Amby McSweeney, Jos. Nash, Auditor Underhill, Tom Casey, J. H. Coleman, W. B. Lawrence, Jesse Robb, Albert Mansfield and many other sports who never grow old or less popular made their presence appreciated by all.

The dance given by the boys of Daly City Band last Saturday evening in their own hall was a decided success. JamesCallan was the master of ceremonies and all things went the way they should. There was enjoyment for everyone present.

The rain which fell last Thursday and Friday was a blessing to this part of the county. Right well we know how unwelcome it was in other parts. It seems to the writer that a perverse fortune is pursuing the farmers of the coastside this year, all the rains come so untimely.

George C. Luce, who spent a decade of his life in this vicinity, and who was known in other parts of the county, passed away last Friday in San Francisco. His life was cut short with cancer of the stomach. A large number of his Colma friends attended his funeral at Cypress Lawn last Sunday afternoon. The sympathy of the entire community is extended to his bereaved wife and family.

More Pay For Rural Carriers.

Under authority confered by the postoffice appropriation bill, Postmaster-General Hitchcock has increased the salary of rural letter cariers on standard routes from $900 upwards to $1100 a year, thus affecting 30,000 men, with proportionate increases to carriers on shorter routes. The order is effective September 30. This means an increased disbursement of $4,000,000 a year. Jesse Arp, the local carrier who receives $900 will be increased to $1000.

The new postal law is in effect and next Sunday there will be no mail delivery in the local post office, except letters bearing the special delivery stamp.

WANT DRIVES MAN TO SERIOUS CRIME

Suffering From Pangs of Hunger Stranger Secures Food on Worthless Check.

Max Lagosa, the merchant, cashed a bad check Thursday, but through the promptness of the sheriff's office recovered the greater part of his money. A stranger entered his store and after purchasing some goods presented a check drawn on the First National Bank by "W. S. Jacobs" and made payable to "J. Janny" for $9.50. Lagosa declined to cash the check and his patron as a further inducement increased his purchase to $4.50 and Lagosa took the check and gave him $5 in cash. The stranger left the goods in the store and Lagosa at once went to the bank and learned that he had been victimized.

The sheriff's office was notified and Deputy Shields made a hasty search and captured the bad check man just as he was about to take a train out of town. He confessed his guilt and told the officer that he was driven to do the act because he was almost starved. He said that his name was Charles Spaulding. The prisoner still had in his possession $4.30, he having spent 70 cents for a meal and two drinks of beer.

Spaulding appeared in the Superior Court on Thursday and pleaded guilty and Judge Buck suspended sentence for one year and permitted the accused man to go on probation. He is to communicate with the court every month during the term of his probation.

RAILROAD RIGHT OF WAY IS SUBJECT OF LAWSUIT

The East San Mateo Land Company is suing the Southern Pacific Railroad Company in the Superior Court this week to determine the ownership of the company's right of way between San Mateo and Beresford. Fifty-two years ago the land was leased to the San Francisco and San Jose Railroad Company by Alvinza Hayward, for a period of fifty years. The latter company was in time absorbed by the Southern Pacific. The lease expired in 1910. Prior to that time the Hayward heirs transferred the Hayward property to the East San Mateo Land Company and that company has brought an action to quiet its title to the right of way property, as the assign of Hayward. Should it succeed in securing a judgment it will then be necessary for the railroad company to begin a suit to have the right of way condemned for its own use. The case is being tried by Judge Dooling of Hollister.

ADMISSION DAY AT THE LOCAL SCHOOLS.

Instead of declaring a holiday on Admission Day the school management celebrated the day by holding exercises at the school during the forenoon and allowing the children a holiday during the afternoon.

At the highschool the following exercises were held:

Earl Eikerenkotter, reading from speech by Professor Jordan.

Freda Barg, selection from Joaquin Miller.

Professor McCrea gave an interesting talk on early California.

Ray Griffin read a selection entitled "California, Our Pride."

Miss Merrill gave a select reading entitled "California."

Fay Thorpe concluded the literary exerciess with a short discussion on California County Libraries.

There was appropriate music.

At the grammar school the day was observed by exercises in each room appropriate to the grade. In the upper grades the history period was used to discuss the events preceding and attending the admission of California into the Union. Patriotic songs were sung throughout the school.

The convent children were given a holiday in which to celebrate.

LOOK OUT FOR THESE SURE-THING SHARKS.

A government circular recently called attention to the sure thing sharks who watch the death lists of the county, and then address the widows or orphans with messages of sympathy, and at the same time offering them investments that will "make them rich." Any money entrusted to these ghouls is irretrievably lost. One such message came this week, addressed to a person whom the ghoul supposed to be a widow. It is in part as follows:

Dear Madame: I will mail you enough confidential information to enable you or some member of your family, to make some easy money, quickly and honestly. I worked the idea from practically nothing in a small western town, to my present position in New York.

It is so simple that anyone, young or old, who can read and write, can make money at it—sometimes a fortune. Just some easy money—getting kinks which I have learned in the pursuit of my extensive business activities.

I write it all to you in plain language on a few pages which you can understand at once.

Merely send me P. O. or Express order for five dollars and you will receive the complete instructions by return mail.

You may feel entirely safe in remitting for above matter, as the government does not allow frauds to be operated through the mails.

Awaiting your command, I am
Sincerely, J. S. ALLEN.

THE DEVELOPMENT ASSOCIATION

The City of Cleveland, Ohio, has decided to try the experiment of a municipal dance hall with a 3-cent admission. The leading figure is likely to be the taxpayers' trot.

There is money now to buy what goes into the dinner pail and some to jingle in the pocket of him who carries it. There was little in the pail and nothing to jingle in the blighting days of free trade.

Johnson, Lissner, Rowell, Al McCabe, Tom Finn—all these holy angels of clean politics are out of the Republican party. They left it of their own accord. They remain nominally Republicans in order to make their treachery more effective. But they are not Republicans in any sense of the word. They are Roosevelters, Third Termers, Bull Moose—whichever name you choose for a party which has no other obect and no other argument than the election of Theodore Roosevelt to a third term, a fourth term, a perpetual term.

A GOOD PUBLIC INVESTMENT.

The suggestion of Trustee Deleau, made at the last meeting of the city council, that a sum ample for its purpose be set aside from the general fund of the city for the use of the Park Commission, is one which should—and we are fain to believe will—receive the commendation of every taxpayer of the city. Working, as it has, under what must be acknowledged to be a material disadvantage, this commission has already accomplished much along the lines for which it was created. Under its direction a plan of systematic embelishment of our streets and public places has been devised and a good start at practical work has been made, and this at a meager cost to the city.

Through the commission plan only can a work of this character be practically accomplished. The individual property owner must realize if he happens to be progressive to the point where he believes in the efficacy of well shaded sreets and attractive parks as a municipal asset, that his efforts in that direction are largely defeated when his neighbor sets out trees of a different variety from those he has planted, or worse still none at all. We need to work to some comprehensive plan or system of tree planting if our city is to be made attractive for the class of citizens desired in the development of the city as a desirable home section. The Park Commission is the proper repository of such authority, and the work of the past demonstrates that the work is safe in their hands. Bu if the commission is to accomplish the desired results it must in common decency be provided with a fund sufficient for the work and which shall be entirely at its disposal.

A BIG LOAF TO CUT.

Word comes from West Texas that the movement for dividing that big commonwealth into two or three states is revived under circumstances which promise to make division the livest of the live issues which Texas has seen since annexation in 1845, says the St. Louis Globe-Democrat.

This is a large sounding boast. As becomes a large locality. Simply for advertising purposes, if for nothing else, it is excellent. It will call attention to the fact that the area of the state is so vast that it includes diversities almost as wide as those between Maine and Florida. But that is probably about the extent of the rumor.

There is at this time as little apparent probability of cutting up the state of Texas into several sections as there would have been during the presidency of Sam Houston or Lamar, when it was an independent republic, previous to its inclusion in the bigger republic to which it has been an integral part for two-thirds of a century. While the joint resolution under which it was annexed permitted a division into four additional states, provided the people of the state and the Congress of the United States were willing, the people of Texas have never taken this permission very seriously. There may have been an incentive for division in the days preceeding 1860, for the purpose of increasing the membership of the slave section in the Senate, but with the adoption of the thirteenth amendment to the Constitution even this has vanished.

Texas, however, might he divided into several states and have each of them larger than New England. There are several counties in Texas which include more area than Matsachusetts. Within its boundaries today is included a greater area than the Empire of Germany which supports a population of about 65,000,000 of people. With a population of a little less than 4,000,000 in 1910, Texas stood fifth in the roll of states in population in that year. At the present rate of increase it bids fair to pass Ohio by 1920, to get ahead of Illinois by 1940, to exceed Pennsylvania in 1960 and even to beat New York by 1980 and thus become the Empire State. In this is the one great reason why the people of Texas will never consent to division, much as it would please the hungry politican.

JUDGE LAMPKIN ACTS IN DUAL OFFICIAL ROLE

Officiates at Wedding and Tries Groom on Bigamy Charge.

Clay Tucker, the bigamist, appeared in Judge Lampkin's court yesterday for his preliminary examination but owing to the absence of one of the principal witnesses the case was postponed until next Thursday at 1 o'clock. At the suggestion of the district attorney the bail was reduced by the court to $500 cash or $1000 bond. Tucker appeared here last March and after securing a marriage license at the clerk's office was married by Judge Lampkin to Miss M. H. Wilson, a high school girl of Berkeley. At that time he had a wife residing at Oakland from who he was not divorced. Shortly Tucker fled to Vancouver when he found out that the parents of the young girl learned that he had a wife across the bay. After wandering about for some time he finally returned and gave himself up to the authorities. He has been in jail for some weeks. Tucker is a Stanford man and a civil engineer of considerable ability. A coincident of the case is that Attorney McNulty, who is employed by the father of the girl and who will be associated with District Attorney Franklin Swart in the prosecution of the case, is a fraternity brother of the prisoner, both having been members of the same fraternity at Stanford. The missing witness yesterday was wife number one, who would not come unless subpoenaed by the district attorney. She will be served on Monday so that the case will be heard on the day set.
